

Rules Of The Arena- Health and Safety

When riding follow the regular arena etiquette:

All Members must read and accept the rules of the area for their own safety and safety of members and horses around them. If you are a parent of a child then you should brief the child of these rules

1. Keep at least one horse length between riders and other horses at all times. Horses may kick and cause injury

2. Be aware of other riders and do not cut off anyone. Always overtake or pass another horse which is moving in same direction on the inside circle while keeping distance from other horse (Rule 1). Do not over take if there is not a clear path. Always make yourself known to other riders when overtaking

3. Horses working at a faster gait are given priority to use the outside track of the arena.

4. When riding in the arena on opposite directions, horses should pass left shoulder to left shoulder.

5. If you must stop to adjust equipment move to the center of the ring, unless there is an exercise in practice ie. trot poles, then you move to side of exercise but away from outer track.

If there is a “run away horse” all riders must move to the center of the ring and stop. Be aware at all times of riders and their horses around you ensure enough time is given for other riders to react to you.
